WORK EXPERIENCE

Full Stack Engineer

WebinarGeek, Berlin (Jan 2022 - January 2023)

Work on a team of 8 to rebuild the frontend streaming app from legacy written in Ruby on Rails to React + Typescript.

Improved API endpoints and data structures while integrating the React-based frontend with the Rails backend.

Working closely with product designer, brainstorm about UX, and mobile flow, continuously giving detailed input from user and technical perspective.

Software Engineer

Arbour GmbH, Berlin (Apr 2021 - Oct 2021)

Work focused on software development, test coverage, User Interface improvements and bug fixes. Building and maintaining new landing page of the site.

Founder

NAPPIES, Berlin (Jul 2020 - Present)

Nappies is an application for finding the nearest baby friendly places wherever you want based on provided facilities. It got released in the iOS store in July 2020

Teaching Assistant

Le Wagon, Berlin (Jan 2020 - Apr 2021)

I help students to solve technical problems and to understand the concepts of Ruby, OOP, MVC Architecture, Ruby on Rails as a teaching assistant at Le Wagon Berlin, by leading them to the solutions.

Teacher - Volunteer

Re-Di School, Berlin (May 2020 - Present)

Participate in Kids and Digital Women Program. Contribute to Coding and Web Design Fundamentals courses.

Freelance Photographer

Shutterstock, Oakland, CA (Oct 2015 - Oct 2019)

My work was focused on Lifestyle, Product, Travel, and Real Estate. Completed assignments for Marriot, Wells Fargo, Manulife Asia, UBS and etc.

PAST EDUCATION

Le Wagon, Berlin (Oct 2019 - Dec 2019)

9-week intensive coding bootcamp which taught me how to build RoR projects as both solo Full Stack developer, and a team player.

Lasalle College Int, Jakarta (Oct 2008 - Apr 2011) - Interior Design

Learnt to conceptualize and produce aesthetic, functional spaces and designs.
